

*Staying in
the Game*

*with
SoloRider*

*Golfers appreciate these
SoloRider features:*

Comfort: With custom-designed four-corner coil-over shocks, SoloRider has the most comfortable ride in golf.

Safety Features: SoloRider exceeds all applicable ANSI (American National Standards Institute) safety standards, offers unparalleled stability, and features regenerative braking.

Speed of Play: With a rated speed of 13 mph, SoloRider keeps golfers on pace with their playing partners. In fact, studies show that single-rider carts reduce playing time more than 20 percent.

Reliability: Three 12-volt industrial batteries give SoloRider multi-round endurance.

Styling: Feel confident in SoloRider's award-winning styling and design.

in the game.

Long after you lose the mobility and stamina you once had, you still dream about playing the game you love. For over a decade SoloRider has turned those dreams into reality for thousands of golfers who are enjoying the stable, comfortable and fun way to stay in the game. With SoloRider, you too can extend your golfing life as you never imagined and continue to enjoy golf with your friends and family.

The SoloRider Difference

SoloRider's unique design allows you total access to the golf course with features that reduce your exertion in a variety of ways:

- Drives on greens and tees
- Handles the most mountainous golf courses
- Enables easy entry and exit from a swivel seat
- Elevates you into a hitting position
- Features the smoothest ride in golf
- Easily operated using one-handed controls

The SoloRider Difference

" As a polio survivor and avid golfer, I passionately believe golf should be accessible to those of us with mobility impairments. Having used and enjoyed a SoloRider since 2000, I am convinced that SoloRider, with its patented stand-up seat, is the most sensible way to keep disabled golfers and seniors in the game. **"**

The ADA and You

The Americans With Disabilities Act (ADA) was signed in 1990 with the purpose of ensuring that persons with disabilities have access to the full and equal enjoyment of public accommodations. Although the act secures the rights of persons with disabilities to have the opportunity to fully engage in the game of golf, many courses have adopted a wait-and-see attitude when it comes to offering complete accessibility.

We encourage disabled golfers and those with mobility impairments to understand their legal rights. SoloRider has stayed on the leading edge of golf accessibility issues for more than a decade. Our website is designed to be your resource and guide.

The World's Most Versatile Golf Cart

In addition to the many uses of standard golf carts, SoloRiders are used by:

- Seniors staying in the game with a cart that makes allowances for lack of stamina and balance.
- Mobility-impaired golfers who appreciate the many features that make golf an enjoyable possibility.
- People who enjoy hunting, fishing, and other outdoor activities.

You can play from the cart using the stand-up seat in various positions or merely drive onto greens and tees. Enjoy the freedom of SoloRider, the golf cart that keeps you in the game.
