Retailers

Providing support to hemp growers, distributors and manufacturers, we can test your products and provide you with accurate results to enable your customers to put to market a safe product. We can test a range of finished product and extracts such as isolate and purified oil.

All our services

## About us

With our state-of-the-art custom-built facilities, we have the expertise and skills to deliver accurate results for your business. We understand that compliance and quality is essential for your CBD brand.

More about us

## What our clients say

*Excellent efficient service and very happy to explain things to you clearly if they are not obvious when reading a certificate of analysis.*
